Subject Universal Form Clamp Company Site: Next step??

On February 6, 2007, U.S. EPA sent a demand letter to Universal Form Clamp Company (Thomas Fahey, President, and via fax to Mike Phillips). As far as I know, Universal has not assigned an attorney to deal with U.S. EPA issues and has not responded to the demand letter. I would like to call Mike Phillips to see if he received our fax and to find out if he knows if Universal plans to respond and if it has assigned the matter to an attorney with whom you should be speaking.

Is it OK if I proceed with the phone call?
